17 December 1951

SUBJECT: Monthly Survey Report - BGFiend - 15 November/15 December 1951

TO: Chief, ZACactus
Washington, D.C.

Attn: []

REF: 1108-CWUAG

DECLASSIFIED AND RELEASED BY
CENTRAL INTELLIGENCE AGENCY
SOURCE METHOD EXEMPTION 3B2B
NAZI WAR CRIMES DISCLOSURE ACT
DATE 2007

mapped 1. Air Operations. Unsuccessful resupply mission to Pinetree was staged on 13 December. Low hanging cloud formations prevented the target area from being seen. For cover purposes 200,000 leaflets were dropped, of which 30,000 were QKFervor cartoons, 100,000 air mail QKPaling, plus 70,000 standard QKPaling. The area covered was south of ZRShower enroute to HTRegale C-11 and D-1138. A second resupply mission to Pinetree was carried out on 15 December. Ideal weather conditions prevailed and a search of the target areas revealed no ground reception signals. Approximately 225,000 standard QKPaling were dropped in HTRegale F-10 area and between G-1079 to D-1215. A BGBegood mission will be carried out during the first favorable break in weather.

2. The preparation of operation BGBegood proved to be an extremely slow and arduous task, requiring the services of the entire BGFiend staff with the exception of []. Approximately 3,000 tins of food were canned by means of the hand-operated canning machine; 137 man hours were required for the canning operation and the packing of 5 tins to each of 408 small container bags. As this work must be carried out by cleared personnel it was impossible to use local labor. Due to the amount of time involved in the canning operation and packing the tins for dispatch, sufficient personnel are not available to prepare more than one BGBegood operation per month. If some type of mechanical canning machine could be supplied us, the time and personnel involved could be greatly reduced. Such a machine should operate on 220 Volts A.C. 50 to 60 Cycle Current, or be supplied with a suitable transformer. With the aid of a mechanical canning machine we should be able to stage two BGBegood operations per month.

3. BGFiend has been awaiting a reply from [] office through [] for a period of nearly six weeks regarding the return to JBPardon of the Wangness-trained Wahoos. At present, BGFiend personnel are guarding and feeding 11 Wahoos held at the BGFiend staging area LCDrink. These men have been on our hands for some 70 days, and maintaining housekeeping and guard facilities for

them has occupied the full time of three Fiend employees who are badly needed for other activities. [] latest report indicates that he has received no reply from [] The only solution is to return these men to QKDimple pending [] decision.

[] wishes to resign as he has been in charge of these characters since 10 October and states he can stand it no longer. It is hoped that [] can be relieved within the next few days, return to HTStein and allowed to take 15 days leave in the HTCurio as was authorized him by [] and ZRMetal.

posted 4. [] EOD on 8 October and has been assigned as an assistant to [] in addition to doing interrogation work and taking his turn in looking after the KMWahoos we are now holding.

posted 5. [] EOD 15 October and has since been occupied with guard duty and supply of the Wahoos held at the BGFiend staging area. His presence has been of the greatest help to BGFiend and his fluent knowledge of the LCFlake language is invaluable to us.

posted 6. [] EOD 15 November and immediately went to work as assistant to [] in his BGFlume activities.

7. No radio contact has been made with Pinetree since 14 November. Identity (1) , former W/T operator with Chestnut has been in training in LCDrink since the remainder of this team exfiltrated 30 October.

8. Once the present group of Wahoos are off our hands, plans are being made for a 3 or 4-man quick round trip mission to determine the results of BGBegood and gather further propaganda material for Details and plans of this mission will be forwarded shortly to ZRMetal.
